Education

B.Tech | Computer Science and Engineering (Data Science) (CSE(DS))

VIIT, Pune, Maharashtra | Expected Graduation: 2027

Diploma | Computer Engineering (CSE)

JSPM's RSCOE, Pune, Maharashtra | Graduated: 2024

Skills

- **Programming Languages:** JavaScript, TypeScript, Python, C/C++, Java
- **Frontend:** Next.js, React.js
- **Backend:** Node.js, Express.js, Hono
- **Databases:** PostgreSQL, MongoDB
- **Version Control:** Git, GitHub
- **Other:** REST API, Prisma ORM, Postman

Projects

TaskBidder – Freelancing Marketplace

Links: [GitHub](#)

- Designed and developed a full-stack task bidding platform using **Next.js** for both frontend and backend.
- Implemented user authentication and session management with **NextAuth**.
- Built dynamic forms and input validation with **Zod** to ensure robust data handling.
- Used **PostgreSQL** and **Prisma ORM** for database management and optimized queries for performance.
- Developed a real-time chat feature using **WebSocket**, enabling seamless communication between users.
- Integrated job posting and bidding functionality, allowing users to select tasks based on preferences.
- Enhanced user experience with **Axios** for efficient data fetching and state management.
- Added a FAQ section to provide quick answers to common user queries.
- **Tech Stack:** Next.js, NextAuth, WebSocket, Axios, Zod, PostgreSQL, Prisma ORM.

PopcornSeats - Full-Stack Movie Booking Platform

Links: [Live Link](#) | [GitHub](#)

- Developed role-based authentication with secure admin and user access using **NextAuth**.
- Designed and implemented a responsive **Next.js** frontend for movie listing, filtering, and seat booking
- Built serverless backend APIs using **Hono** for efficient movie and seat management.
- Integrated **PostgreSQL** with **Prisma ORM** for database operations and real-time updates.
- Implemented dynamic seat locking to prevent rebooking upon successful transactions.
- **Tech Stack: Next.js, Hono, NextAuth, Axios, PostgreSQL, Zod, Prisma ORM**
